### CLOUD DEVELOPER

## APPLICATION FOR INTERNSHIP (LIA)

I am a highly driven and dedicated student in AWS Cloud Development, and I believe I am the right candidate for the internship position in your IT department. I am eager to apply my skills in the IT field and contribute to your ongoing successful work in this area during my internship.

I am currently studying at Jensen Yrkeshögskola in Stockholm, where I have developed a strong understanding of programming languages such as Java, Spring Framework, Hibernate, software development tools like Docker, databases including MySQL and RDB, AWS cloud technologies, and other relevant web development technologies.

During my education, I am taking the following courses:

- Self-leadership
- Object-oriented programming with Java SE
- Systematic software development with Java
- Self-leadership – Leading oneself, continuation
- Database management
- Fundamentals of Cloud computing
- Administration and security in cloud environments
- Technical project management
- Cloud development
- Web development

I enjoy working as part of a team. I am very communicative, possess strong problem-solving skills, and have a willingness to collaborate, which I believe will contribute to excellent cooperation between us. I look forward to meeting you for an interview to discuss how I can be of assistance to you.

Best regards,
Sumihiri Mihindukulasooriya
